

SANGEAN PR-D17

The **Sangean PR-D17** is a very special radio. This top quality AM, FM, FM stereo radio with twin speakers is designed for the **visually impaired**. It has high-contrast, large yellow rotary tuning and volume control knobs, preset buttons with raised symbols to aid in identification and thoughtful voice prompts of all controls that announce all functions in female English or Spanish. Additionally, the tuned frequency and band is voice announced as you tune the indented tuning knob. There is no guessing the frequency. The large backlit LCD display highlights RDS information, frequency, signal strength, battery status and alarm symbols. It has a 200 mm ferrite AM antenna for great AM reception. The controls are easy to use and you get 5 presets for AM and 5 for FM. The preset buttons are marked in Braille (sans number indicator). And you can auto scan stations. The RDS technology can display station name, call sign, song title or other transmitted information, plus it can set the clock automatically. There is a stereo / mono slide switch and built in clock timer with sleep function and humane wake up system to buzzer or radio. The left panel has a 3.5mm auxiliary input and stereo earphone jacks. The perfect solution for the radio enthusiast who is visually impaired. Includes 9VDC AC adapter and can also be operated from six alkaline or NiMH C batteries (not supplied). Output power is 800mW x 800mW. 10.5 x 5.5 x 2.5 inches. One year limited manufacturer's warranty.

PR-D17 Order #0417 \$119.95

SANGEAN HDR-15

This is not your Father's clock radio. The **Sangean HDR-15** brings new technology to the night stand. It features digital **HD Radio™** AM and FM reception. It also features an auxiliary input for playing iPod™ or MP3 player. Plus there is a USB charging port and line output jack. The backlit LCD screen shows: Channel Frequency, Call Sign, Radio Text, Audio Mode, Service Mode, Signal Quality, Clock Time and Emergency Alerts. You get 20 AM and 20 FM presets. With FM wire antenna and AC power adapter.

The **Heil PRAS Parametric Receive Audio System** is a state-of-the-art device that enhances the audio of amateur, shortwave, commercial and CB radios. It allows radio operators to modify, shape, and improve their receive audio using three separate equalization controls. The controls are easy to use. Midrange frequencies are the most critical for achieving clear voice articulation. Operators can adjust the parametric midrange filter ±15dB from 400Hz to 4kHz, with the recommended sweet spot being at 2.5 kHz. Combined with a low-frequency filter down to 160 Hz, and a high-frequency filter up to 6 kHz, you get unparalleled control and quality of your receive audio. The PRAS rear panel has three audio inputs: XLR and 1/8", and an 8 ohm input that can be used with the 8 ohm speaker output of any receiver. Includes Heil HPS-5 two-way, powered speaker (shown).

PRAS System Order #1060 \$349.95
