

Unbeatable prices on Heil!

PRO10 PKG

The stunning Heil PRO10 PKG features a dynamic studio quality microphone and LB-1 adjustable illuminated base. It produces fully articulate sound from 85Hz to 16kHz. This mic requires a CC1-XLR cable (not included).
List \$276.00 Order #6406 **\$239.98**

PR30

The Heil PR30 Proline broadcast mic is a professional quality dynamic cardioid microphone designed for commercial broadcast, recording and live sound reinforcement applications and it has a sound comparable to the finest condenser microphone because of its wide frequency response, excellent transient response and low IMD. Shown with optional SM2.
List \$252.00 Order #2920 **\$229.98**

MH-C801D AA2500 Sale!

The Maha MH-C801D charging system refreshes old and degraded batteries and makes charging easy. The MH-C801D features eight independent circuits that charge one to eight AA or AAA batteries in any combination. The charger incorporates a large LCD screen displaying the charging status of each battery. The language-based display replaces traditional LED indicators. Maha's new eight cell microprocessor will charge batteries to their maximum capacity without overcharging or undercharging. You may choose between a soft charge (for highest battery life) and fast charge for as little as one hour! The eight cell charger is embedded with a high-rate battery conditioner that will charge, deep-discharge and recharge batteries automatically for maximum rejuvenation. The supplied 100-240V, 50/60Hz adapter employs a rugged DIN connector for reliable contact. This special MH-C801D8AA2500 version includes 8 MH4AA-250 AA cells! Best price in the country!
List \$94.95 Order #4699 **\$49.98**

BM17 BM17iC

The Heil BM-17 is a lightweight headset designed for emergency communications. It is available as either a single-side or dual-side model and with either a dynamic or electret element. The BM-17-Dynamic headset uses the BM-D 500 ohm dynamic element designed specifically for communications use and will work on most amateur radio rigs requiring a Low-Z input impedance (150 - 4k ohms). The BM-17-iC, for use with Icom radios, uses an electret element. The regular BM17 single dual require the appropriate AD1 cable for your radio (sold separately). The iC versions must be paired with the included AD-1-iC or AD-1-iCM adapter (sold separately). The BM-17 is yellow.
BM-17 [Single] Order #5459 \$89.98
BM-17 [Dual] Order #3532 \$109.98
BM-17iC [Single] Order #1973 \$114.98

PR35

The upgraded Heil PR35v2 features a large-diameter, high-clarity element. Its three-position switch allows the operator to set the low-end roll-off point at 40 Hz, 60 Hz, or 120 Hz for best results on the air. The PR35 has a soft-touch outer coating that makes this mic an outstanding addition for high-end transceivers like the Icom 7800 or Pro series and the Yaesu FTdx9000/2000/950. The mic clip screws onto the CB-1PTT, SB-2 and PL-2T mounts (which are not included). Uses 3-pin XLR connector, and works with CC1-XLR series of adapter cables (sold separately).
List \$276.00 Order #5868 **\$219.98**

HHG

The Heil Heritage is a 600 ohm balanced mic with a full-range frequency response optimized for modern DSP-based rigs that have mic equalization Requires CC-1 cable, sold separately.
HHG Silver Order #4602 \$149.98

THANK YOU!

Dear Friends Of Universal Radio,

Time waits for no one, and that includes Barbara and myself. We have decided to retire and our current location in Worthington is closed. Even though the store is closed we will fulfill all existing customer orders and have a large amount of inventory to close-out. The Universal Radio website will be maintained for the foreseeable future to sell this remaining stock, publications and some select products. Unfortunately the lack of a store front showroom will preclude us from carrying some manufacturers' products.

I am very fortunate to have been in the radio business for over 50 years, 13 at Radio Shack and 37 at Universal Radio. We have met many wonderful people along the journey who have supported me personally as well as Universal Radio. It has been a privilege to have a continuous career in the fascinating field of radio since 1969. Please accept our sincere "Thank You" for your support of Universal Radio for these many years, and for the months to come.

Our new address for correspondence and mail order is below. This is not a store front.

Universal Radio Inc.
752 N. State St. Unit 222
Westerville, OH 43082

Phone: 614 866-4267

Thank you.

73,

Fred Osterman N8EKU
Barbara Osterman KC8VWI

MFJ-929

The MFJ-929 IntelliTuner™ lets you automatically tune any coax fed or random wire antenna 1.8-30 MHz at full 200 Watts SSB/CW. It can match 6-1600 Ohms (SWR up to 32:1). You get a digital SWR/Wattmeter with backlit LCD and an antenna switch for two antennas. Requires 12-15 VDC at 1A and appropriate interface cable. **Sale!**
