There is a built in digital clock timer. This radio features RDS - Radio Data System that enables FM broadcasters to deliver more than just an audio signal, but also to transmit alphanumeric data, like the station's call letters, style of music, song title, artist and more. The AM band can display in 9 or 10 kHz increments. There is a Local/DX switch and battery status icon. Display brightness may be set to Low, Medium or High. Antenna jacks are provided for both MW or SW/FM antennas. Operates on four D cells (not included) or supplied AC adapter.
