GP-5/SSB Gen3

The **CountyComm GP-5/SSB Gen 3** provides serious HF communications monitoring in a unique form factor and at a great price. The radio covers AM, shortwave 1700-30000 kHz and stereo FM. Unlike most radios in this price category, the GP-5/SSB provides LSB and USB single sideband reception. It has a *Easy Tuning Mode* that scans all frequencies without consuming memory spaces. So you get quick access to all local stations. There are also 550 regular memories (100 AM, 100 FM, 250 shortwave and 100 for SSB) available for your favorite stations. Another great feature is its removable external directional LW/MW ferrite

antenna that clearly enhances AM band reception. This radio employs DSP technology, improving clarity and tone quality. There is an adjustable sleep timer. Requires three AA batteries (not included). It also has a 5V mini-USB DC input jack when using rechargeable AA batteries. Includes: LW/MW bar antenna, stereo ear buds, pouch, belt clip, wire antenna and manual. With effective SSB reception and compact size, it is a strong choice for preparedness applications. This latest Gen3 version adds colored keys, improved whip antenna, louder audio and longer run time. 2.1 x 6.3 x 1 inches 4.5 oz. Light gray case.
