**Alpha Delta ASC-4B/N**
The Alpha Delta ASC-4B is a precision four position antenna switch employing the latest high-tech design. Cast aluminum constant impedance cavities maintain a constant 50 ohm impedance. These switches are rated at 2000 watts PEP. Silver-plated phosphor bronze micro strip construction ensures loss of less than 0.1 dB at 30 MHz with greater than 60 dB of isolation (0.5 dB loss and 50 dB isolation at 450 MHz). They can sit next to your equipment on a desk without having to be bolted down. The housing is at a 20 degree angle from horizontal to provide an effective viewing angle and minimize cables or hand pressure from moving the console. Your get three levels of surge protection! In the common position the radio is disconnected from all antennas and all antennas are connected to ground. A replaceable D-4 Arc-Plug cartridge will divert harmful surges to ground. The Delta switches reduce the hazard of lightning induced surges, but will not prevent fire or damage caused by a direct strike. Made in the U.S.A. The ASC-4B/N switch is the same except with ‘N’ jacks instead of SO-239s.

**Alpha Delta ASC-4B Four Position Console** Order #1918 $149.95

**Alpha Delta ASC-4B/N Four Position Console** Order #1217 $149.98

**Alpha Delta D-4 Arc-Plug Replacement Pill** Order #0854 $8.95
